

Music Website Final Project – Phase 1: Design & Planning

1. Project Proposal

Theme Selection

Harmony Hub – a music discovery and artist exploration website.

Target Audience

Music fans who want to discover new artists, albums, and songs

Teenagers and young adults interested in exploring different genres

Listeners looking for detailed information about their favorite artists

Purpose of the Website

Harmony Hub is designed to help users discover music, learn about artists, and explore albums across multiple genres. The website will provide an engaging and interactive platform where visitors can browse artists, view album details, and find new music based on their interests.

Key Features (Planned)

Interactive homepage featuring popular and trending artists

Browse page organized by genre, artist, or album

Detailed artist and album pages with descriptions and information

Search functionality for artists, albums, and songs

Contact/About page with website information and feedback form

Responsive design for desktop, tablet, and mobile devices

2. Site Map

Home Page
